

The joy of woodturning lies in cutting wood the way wood likes to be cut., In sharpening the tools till they hiss through the grain giving long curly shavings, and producing pieces of beauty and usefulness.

Woodturning courses with Tobias Kaye offer you a chance to learn more about this joy, a chance to make woodturning into a 3-way relationship.

*If the tools the wood **and you** can become friends then anything is possible.*

Over the years my courses have built up an international reputation for in depth good teaching of excellent techniques. Many have begun their hobby or career in my workshop, many have returned for improvement courses. I am proud to offer really excellent woodturning courses.
